Troubleshooting Guide

Issue	Solution
No misting or device not working	a. Check if the batteries are sufficiently charged.
	b. Ensure that the device is not in the off position.
	c. Inspect the misting head for any blockages.
	d. Verify if the essential oil bottle is securely tightened.

Safety Precautions

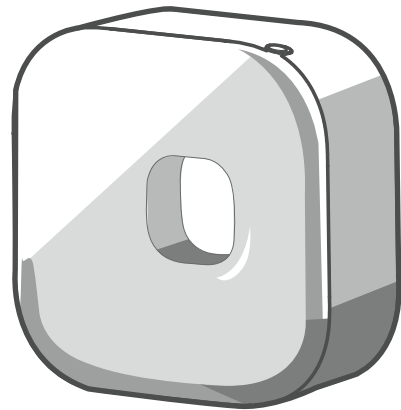

- After installation, please keep the product upright. Tilting or flipping the product may cause essential oil leakage, leading to damage.
- Do not immerse the product directly in water or rinse it with water to avoid short circuits that could damage the machine.
- Essential oils should not be mixed with impurities or particles to prevent blockages in the pipelines.
- Place the product in a cool area, away from direct sunlight or heat sources.
- Do not interchange different types of essential oils to avoid mixing scents.
- Do not modify, disassemble, or repair the product. If the product malfunctions, please contact our after-sales customer service promptly.
- Keep the product out of reach of children. Minors should use this product under adult supervision.
